

To Whom it May Concern,

I am writing this letter to note our experience working with DeMueble Proyectos, and Luis Murra. We started working with DeMueble in 2007 with a hotel project in Pahrump, Nevada. We saw great success with this project, and decided to use DeMueble as our foundation for hotel furniture. The quality of workmanship, response to our needs and lead times were very good. We have sourced and tested furniture from many countries around the world, and to this day, prefer working with Luis and his group at DeMueble due to his commitment to quality.

Our projects that we have delivered have been the Pahrump Nugget, La Quinta Inn in Arkansas, Quality Inn in Arizona, and we have sent miscellaneous furniture pieces to many potential customers to try and gain their business also. We also have provided furniture to Holiday Inn Express in Arizona, and Comfort Inn in Airzona through our partner company, Eclipse Hospitality using DeMueble furniture.

In our 4 years experience, I have personally met with Luis in numerous occasions, speak to him on the phone numerous times per month, and quote projects as often as possible. I will continue to use DeMueble for my hotel furniture projects now, and in the future.

Sincerely,

Tony Pena

A handwritten signature in blue ink that reads 'Tony Pena'.
