REFERENCE LETTER.

To Whom it may concern:

Woodstone Furniture is an importer of Case Goods furniture into the United States of America. We have been dealing with De Mueble Proyectos for the past three years in Torreon, Mexico and have found them to be a reliable and an efficient manufacturer of hotel goods. De Mueble has been establishing its products into the USA through participation in the largest Hotel Design Show in Las Vegas for the past six years where Woodstone Furniture, a Texas based company, has been assisting it by representing their products.

De Mueble has been able to manufacture products that confirm with the different franchise requirements and specifications. Our clients have been happy with the products we have supplied in the past years and have not had any major issues with the quality of the product.

We hope that this letter helps you in making any decisions towards dealing with De Mueble in Mexico.

Harry Patel - PR Manager.
